October 2008

Easton, PA: TorcUP, Inc. is pleased to announce that the **Raptor Series Pneumatic Torque Wrench** has been **selected as a finalist** for the prestigious **2008 Plant Engineering Product of the Year** award. The Raptor will be presented in the November 2008 issue of *Plant Engineering* and the winner will be chosen by a reader poll. The award announcement will be made in mid-January. TorcUP is honored to have been selected as a finalist for this award.

The Raptor is a definitive change in pneumatic wrenches. Boasting a sealed housing and ergonomic grip, the Raptor Series is able to handle torque requirements from 120-6000 ft/lbs. With 5 sizes and accessories including nose extensions and customizable reaction arms, the Raptor is able to perform on applications previously inaccessible to pneumatic wrenches. Lightweight and fast, TorcUP customers agree that the Raptor decreases bolting time and increases user safety.

TorcUP carries a full line of tooling for industrial applications. TorcUP produces and sells hydraulic wrenches, pneumatic wrenches, nut splitters, flange spreaders, and impact sockets, in short **ALL OF THE TOOLS REQUIRED FOR TIGHTENING AND LOOSENING BIG NUTS AND BOLTS!** It is actually THAT simple!! TorcUP is a dynamic and innovative company with an emphasis on customer service. Ensuring the tool fits the application and that help is available 24/7 makes TorcUP the clear choice in bolting tools.
